

In God we trust

COMMERCIAL & MILITARY EXTERIOR AIRCRAFT & AEROSPACE GROUND EQUIPMENT CLEANER

Biodegradable, Non-toxic, Near-neutral pH

No petroleum or chlorinated solvents

QPL to MIL-PRF-87937D, Type I

Our Military Aircraft, Aerospace, & Equipment Cleaner is a world-class, concentrated, heavy-duty, biodegradable, non-corrosive cleaning compound for aircraft surfaces and aerospace ground equipment (AGE) – it is the result of 5-years research by labs & rigorous field evaluation; it replaces hazardous petroleum & chlorinated solvents. Our cleaner will assist aircraft maintenance personnel in complying with the stringent EPA and OSHA standards; and complies with **MILPRF-87937D Type I aerospace equipment cleaning specifications.**

OUR PROMISE TO YOU:

Biodegradable blend of natural hydrocarbon solvent, corrosion inhibitors and surfactants with added carbon removers;

Effective on the toughest aircraft soils, including exhaust carbon, hydraulic oils, boot prints, solid film lube and wet stacking; Non-corrosive to aerospace metals;

Replaces cleaners that contain toxic or environmentally harmful ingredients, and reduces volatile organic vapor emissions compared to other solvent cleaners; Improves worker safety, Reduces eye and skin problems;

Concentrated cleaner especially formulated to be economical to use when diluted with water.

DIRECTIONS:

Aircraft and Aerospace Ground Equipment – Soils Water Dilution

Light 1:4 to 1:20 -- Moderate 1:2 to 1:4 -- Heavy 1:1 to 1:2. Apply with non-atomizing coarse pressure spray, foam equipment, or bucket and brush. Allow 3 to 8 minutes dwell time, depending on the soils to be removed. Agitate and rinse with water. **Dip Tank Operations:** Dilute with a minimum of two parts water unless otherwise specified by technical order. Dilute with two parts water for heavier soils. For lighter soils, 10 parts water may be used. *Available in 6 gallon pails, 55 gallon drums, totes, and bulk deliveries.*

Ultimate Maintenance - Friendly to the Environment
