FIREARM CLEANER-LUBE™

Treats the Metal / Preserves / Protects

All in one product: Cleaner, Lubricant, & Rust Inhibitor

MILITARY USED & APPROVED - BIODEGRADABLE

FOR ALL FIREARMS:

Our Firearm Cleaner, Lubricant, & Rust Inhibitor exceeding military specifications; ours is a super-concentrated petrochemical loaded with extreme pressure agents. Cleaner-Lube™ is formulated with a completely synthetic, water resistant, & long life base oil - offering the highest protection in the harshest of conditions - guarding against extreme pressure, friction, heat, and high wear.

Formulated to out-perform any product in the Industry!!

OUR PROMISE TO YOU:

Withstands high temperatures over 600°F / 315°C

Out-performs in extreme below zero conditions

ONE DROP withstands up to 80,000 pounds of pressure

Cleans & removes burnt powder, lead, & grime

Repels water & moisture - Shields against corrosion

Improves bore accuracies

Exceeds MIL-SPEC

STOPS RUST

Performs under harshest conditions

Creeps into remote areas

Reduces friction for faster, smoother, & quieter operation

Reduces wear on all moving metal parts

Offers long-lasting noticeably improved lubrication

Treats the metal, preserves & protects

DIRECTIONS: SHAKE LIGHTLY PRIOR TO EACH APPLICATION:

Apply to surfaces & moving parts of weapon with a soft cloth or applicator top. For best results, always attempt to clean from chamber end. For powder or fouling removal, apply to barrel brush & run through full length of barrel. Repeat process using a wet patch with our Cleaner-Lube™ instead of barrel brush. If necessary, finish using a dry patch to remove excess lube.

Ultimate Maintenance – Friendly to the Environment
