

In God we trust

ONE-STEP™

FUEL TREATMENT

For Gasoline, Petrol, & Diesel Fuel Systems**

NON-HAZMAT

Our **ONE-STEP™ Fuel System Cleaner** will out-perform any like product in the industry. **ONE-STEP™** reduces combustion chamber, intake valve, and port fuel injector deposits. This cost-effective formula is unequaled in removing gums, varnishes, carbon deposits, and corrosive buildup.

ONE-STEP™ breaks down & disperses water and prevents fuel line from freezing. We add extreme pressure agents to our formula to provide superior lubrication to the upper cylinders and valves, protecting against scoring, wear, and carbon buildup. **ONE-STEP™** reduces surging, stumbling, hesitation, stalling, and rough idling; it is safe & recommended for all systems (gasoline, petrol or diesel) including turbochargers. **ONE-STEP™** also offers rust & corrosion protection of vehicle fuel systems, tanks, and distribution systems.

OUR PROMISE TO YOU:

- 1. Improves Mileage & Reduces Emissions**
- 2. Improves Power & Performance – Reduces Stalling & Rough Idling**
- 2. Disburses Water & Prevents Fuel Line from Freezing**
- 3. Cleans Fuel Injectors, Carburetors, Valves, & Upper Cylinders**
- 4. Removes Gums, Varnishes, Carbon Deposits, & Corrosive Buildup**
- 5. Protects against Rust, Corrosion, Scoring, Wear, & Carbon Buildup**
- 7. Protects Injectors from Water Damage**
- 8. Lubricates Metal Parts**
- 9. Improves Lower Quality Fuels**

SAFE FOR ALL: GASOLINE, PETROL, & DIESEL FUEL SYSTEMS – Including Turbochargers: Cars, Trucks, Buses, Tractor Trailers, SUVs, RVs, Motorcycles, Boats, Lawn Care Equipment, Military Jeeps & Fleets.

DIRECTIONS:

Consumers should add 12 ounces (355ml) to the fuel tank at fill up for 12 to 25 gallon tanks. For fuel tanks larger than 25 gallons, add 1 ounce for every additional gallon of fuel. For continued maintenance, add our One-Step Fuel Treatment to your Gas Tank every 3,000 miles or about the same time you change the oil.

****Although ONE-STEP™ is safe for diesel, ONE-STEP™ is primarily formulated for Gas & Petrol fuel systems. ONE-STEP™ does not have all the necessary detergents needed for cleaning diesel systems; therefore, to thoroughly clean diesel, we recommend our 100%™ line of products.**

Ultimate Maintenance – Friendly to the Environment
