

In God we trust

POWER™ SPRAY-LUBE

Exceeds MIL-SPEC - 11 OZ / 312 GRAMS

Page 1 of 2

OZONE SAFE – AEROSOL

**Contains no Silicones, no Heavy Oils, no Graphite,
no Chlorinated Solvents – Leaves no Gummy Residue**

POWER™ SPRAY-LUBE is safe on all metals – it is a high-quality solvent-based penetrating liquid containing rust preventative & lubricating agents. **POWER™ SPRAY-LUBE** is your solution for hundreds of maintenance problems. Exceeding quality & performance standards of many single-purpose products; our product has been scientifically developed with a multi-action formulation that offers versatility to increase maintenance efficiency.

You no longer need to stock a wide variety of maintenance products. In one easy application (ALMOST INSTANTLY), **POWER™ SPRAY-LUBE** will displace moisture from metal surfaces, penetrate & loosen stuck, frozen, or rusted parts as it assembles, cleans, lubricates, & provides protection against rust & corrosion

OUR PROMISE TO YOU:

Penetrates - Frees-up seized nuts & bolts, loosens stuck frozen, or rusted metal parts, fasteners, pipe fittings, joints, threaded parts, sliding mechanisms, valves, sleeves, locks, hinges, latches, electrical connectors, pulleys, chains, winches, cables, operating controls, switches, battery terminals, etc. *Facilitates dismantling operations*

Displaces Moisture - In seconds, eliminates moisture problems on electrical, electronic, communications, & ignition systems without causing electrical resistance.

Cleans & Protects - Removes dirt, grime, caked grease & oil while leaving a thin moisture-resistant film to stop rust (& corrosion) dead in its tracks!! Excellent for use on delicate mechanisms, precision instruments, office machines, power & hand tools, steel molds, dies, turbine engines, electrical motors, electronic systems, jigs, etc.

Lubricates - Eases metal-to-metal contact even in hard-to-reach areas for smoother operation of moving parts

Saves Time - No need to disassemble complex machinery

Formulated to out-perform any like product in the industry!!

BEFORE USE:

Be sure to read & follow warnings / directions noted on product label and MSDS.

DIRECTIONS:

Shake well before use. To spray, hold can in upright position; direct valve opening toward area to be treated. In difficult cases of rust/corrosion, repeat application allowing a few minutes to soak the surface.

CAUTION:

Irritating to skin & eyes. Use with adequate ventilation. Avoid prolong breathing of vapors or spray. In case of skin or eye contact, flush immediately with plenty of water for several minutes. For eyes, contact physician immediately.

WARNING:

COMBUSTIBLE Flash point 150°F (PMCC). Contains aliphatic hydrocarbons (CAS64742-47-8) & petroleum process oil (CAS64742-47-6). DO NOT PUNCTURE, INCINERATE, OR STORE ABOVE 120°F (49°C). Keep from Heat, Sparks & Open Flame. Keep from Children.

NOTE:

Power spray lube is also available in 8 oz / 237 ml pump-spray bottles, 5 gallon pails, & 55 gallon drums.

Ultimate Maintenance – Friendly to the Environment
