WIRE ROPE

LIGHT LUBE-OIL™

WIRE ROPE LIGHT LUBE-OIL™ is formulated to protect wire ropes, sheaves, bucket chains, and drum lagging as used in mining, construction, marine, and forest industries. It is formulated to lubricate and protect wire ropes operating under adverse conditions and aids in prolonging wire rope life as it extends associated component life.

Starting from select refined and processed petroleum base oils, **WIRE ROPE LIGHT LUBE-OIL™** is formulated with both extreme pressure and corrosion resistance additives that enhance the natural lubricating abilities of oil.

OUR PROMISE TO YOU:

Formulated with extreme pressure & corrosion resistant additives for superior protection

Fast wetting for deep penetration

Sprayable for automatic dispensing

Formulated for use in cold weather (Lincoln Ventmeter test: 0 psi @ -20°F)

APPLICATION:

May be applied by hand or through automatic dispensing systems and is available in pails, kegs, drums, and bin tanks – or special packaging upon request.

CAUTION:

Prior to use, be sure to read and follow precautions and directions appearing on our product container.

Ultimate Maintenance – Products you can Trust
